

PRESSURE GAUGES

DPF 1-C

Our most simple, but always precise instrument: no display, 1 relay.

DPF1C is a differential pressure gauge controlled by microprocessor with a pressure setpoint adjustable by a potentiometer with graduated scale. Once overtaking the setpoint, the relay is activated and it will be recognizable through a red LED lighting on the front panel.

PRODUCT CERTIFICATIONS

STANDARD

TECHNICAL SPECIFICATIONS

Main Features	Features	Values
Dimensions	External Dimensions (L x H x W mm)	105x105x57
	Weight (kg)	0,36
Protection	Protection Level (standard)	IP56
Temperature	Working Temperature (°C)	-10... +50
Power Supply	Power Supply Range (standard)	115/230Vac 50-60Hz
	Power Supply Range (optional)	12/24Vdc 24Vac
	Power Consumption	2,5VA
Display	Led	2
Inputs	Pressure Input	ok
	Pressure Range	0/+999mmH2O
Outputs	Relay Outputs (nr)	1
	Relay Output Power	0,5A/113Vac
Controls	Rotary Switches (nr)	1
